## DPRK's Satellite Fails to Enter Its Orbit

Pyongyang, April 13 (KCNA) -- The DPRK launched its first application satellite Kwangmyongsong-3 at the Sohae Satellite Launching Station in Cholsan County, North Phyongan Province at 07:38:55 a.m. on Friday.

The earth observation satellite failed to enter its preset orbit.

Scientists, technicians and experts are now looking into the cause of the failure.
