Pyongyang, January 24 (KCNA) -- The National Defence Commission (NDC) of the DPRK in a statement Thursday solemnly declared its stand as follows as regards the unreasonable resolution that was adopted by the UN Security Council taking issue with the DPRK over its successful launch of satellite Kwangmyongsong 3-2:

We flatly reject all the illegal resolutions on the DPRK adopted by the UN Security Council.

Along with the nationwide efforts to defend the sovereignty, the DPRK will continue launching peaceful satellites to outer space one after another.

2. As the U.S. hostile policy toward the DPRK has entered more dangerous phase, overall efforts should be directed to denuclearizing big powers including the U.S. rather than the denuclearization of the Korean Peninsula.

The U.S. is taking the lead in encroaching upon the sovereignty of the DPRK, its allies are siding with it and the UN Security Council has been reduced into an organization bereft of impartiality and balance. Under this situation the DPRK can not but declare that there will no longer exist the six-party talks and the September 19 joint statement.

No dialogue on the denuclearization of the Korean Peninsula will be possible in the future even though there may be dialogues and negotiations on ensuring peace and security in the region including the Korean Peninsula.

3. We will launch an all-out action to foil the hostile policy toward the DPRK being pursued by the U.S. and those dishonest forces following the U.S., and safeguard the sovereignty of the country and the nation.

The UN Security Council resolution on expanding sanctions against the DPRK, which was adopted on the initiative of the U.S., represents the most dangerous phase of the hostile policy toward the DPRK.

The drive for building an economic power being pushed forward by the army and people of the DPRK, the effort to conquer space that has entered a new phase and the endeavors to bolster the deterrence for safeguarding the country and defending its security will all orientate toward the purpose of winning in the all-out action for foiling the U.S. and all other hostile forces' maneuvers.

We do not hide that a variety of satellites and long-range rockets which will be launched by the DPRK one after another and a nuclear test of higher level which will be carried out by it in the upcoming all-out action, a new phase of the anti-U.S. struggle that has lasted century after century, will target against the U.S., the sworn enemy of the Korean people.

Setting accounts with the U.S. needs to be done with force, not with words as it regards jungle law as the rule of its survival. -0-
